

Version 1.0

Masonry Analysis Structural Systems

Simplify and accelerate the masonry engineering process

BEAMS

WALLS

SHEAR WALLS

Masonry Analysis Structural Systems (MASS™) software is a powerful software package that analyzes and designs masonry Beams, Out-of-Plane Walls and Shear Walls in accordance with the CSA Masonry Standards. This program dramatically simplifies and accelerates the masonry design process for Canadian engineers.

Complimentary copies of MASS™ Version 1.0 are provided to designers within regions of CMDC and CCMPA (Ontario, Alberta, Manitoba, Saskatchewan and British Columbia). The cost of these complimentary copies of MASS™ Version 1.0 is covered by your local members of CCMPA and CMDC on your behalf.

NMDP would like to thank the following organizations for their significant contributions to the development of MASS™

To order copies of MASS™ please contact NMDP's authorized service provider, the Canada Masonry Design Centre (CMDC):

360 Superior Blvd
Mississauga, ON L5T 2N7
